EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: claim 7, page 13, line 4, "reach" has been changed to ---reaches---.

2. The following is an examiner's statement of reasons for allowance: the prior art does not teach or disclose a driver circuit for at least one light emitting diode device comprising, in combination with remaining features of the claims, a controlled current regulation circuit coupled with a controlled current flow element between the first and second input nodes to regulate the amount of current supplied over a first current flow path by the controlled current flow element to the device so as to accommodate variations in the value of AC or DC voltage source (claim 1); a method of controlling application of electrical energy to at least one light emitting diode device comprising the steps of providing a current regulation path between an input rectifying diode and a path through which a voltage source is coupled to a load, and causing current regulation path to regulate current flowing through a current supply path to the device in accordance with the voltage sensed across a sense resistor (claim 4); a drive circuit in which the reduction in the base bias of the LED current supply transistor and the resulting reduction in current flow through the collector-emitter path of the LED current supply

transistor reduce current flow through the LED and a sense resistor so as to regulate current through the LED over a range of input voltage (claim 7).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
